

**Go Green | Save Green
High Efficiency Heat Pump Application**

Homeowner Information

Customer Name: _____ Date: _____
Last First M.I.

Board of Public Works Account #: _____

Address: _____
Street Address

City State ZIP Code

Phone: _____ Email: _____

HVAC Contractor Information

Name of Contractor: _____

Contact Person: _____

Phone: _____

Equipment Information

Manufacturer: _____ Heat Pump Model # _____

Furnace or Coil ID #: _____ Tons: _____

Backup Heat: Electric _____ (kW), - or- Fossil Fuel (natural gas, propane) _____ (Btuh)

- New construction: Was a heat pump installed instead of a fossil fuel furnace/air conditioner? Yes | No
- Conversion: Is this a conversion from a fossil fuel furnace and air-conditioner? Yes | No
- Upgrade: Is this an upgrade from an existing heap pump? Yes | No

Type of Heat Pump	Incentive Criteria	Incentive Amount
<input type="checkbox"/> Ductless Mini-Split	16+ SEER, 12.5 EER, 8.5 HSPF or 16+ SEER2, 12.5 EER2, 7.7 HSPF2	\$400
<input type="checkbox"/> Ductless Mini-Split	Variable Capacity (inverter driven)*	\$600
<input type="checkbox"/> Ductless Mini-Split (multi heads,3 ton or greater)	Variable Capacity (inverter driven)*	\$1,200
<input type="checkbox"/> Air Source	16-16.9 SEER, 12.5 EER, 8.5 HSPF or 15.2-16 SEER2, 11.9 EER2, 7.5 HSPF2	\$400
<input type="checkbox"/> Air Source	17-18.9 SEER, 12.5 EER, 8.5 HSPF or 16.1-18 SEER2, 11.9 EER2, 7.5 HSPF2	\$800

<input type="checkbox"/>	Air Source	19+ SEER, 12.5 EER, 8.5 HSPF or 18.1+ SEER2, 11.9 EER2, 7.5 HSPF2	\$1,200
<input type="checkbox"/>	Air Source	Variable Capacity (inverter driven)*	\$1,200
<input type="checkbox"/>	Geothermal water-to-air or water-to-water (1 or 2 stages)	Any EER	\$2,400
<input type="checkbox"/>	Geothermal water-to-air or water-to-water (variable capacity)	35+ EER, 5.0+ COP in GLHP partial load column of AHRI or Energy Star certificate	\$3,000

**Provide documentation that shows manufacturer, model number, and that states the equipment is "inverter driven".*

An AHRI Certificate is required for all equipment meeting the requirements in the table above. If an AHRI Certificate is not attached to the application, the maximum incentive will be \$100.

By my signature, I certify that the information provided with this application is true, and that I have read and understand the program guidelines.

Signature: _____ Date: _____

Rebate Guidelines:

1. All heat pumps must be permanently installed in a single-family residential dwelling and primarily used for space heating. A mobile home must be on a permanent foundation.
2. Qualifying equipment is AHRI listed with an indoor and outdoor unit combination that meets the minimum requirements of 15.0 Seasonal Energy Efficiency Ratio (SEER), 12.5 Energy Efficiency Ratio (EER), and 8.5 Heating Season Performance Factor (HSPF). This is the minimum efficiency level for the customer incentive.
3. An incentive payment will be paid to the owner of a residence after the equipment is installed and operating. The application form must be signed by both the contractor and the customer. The application will then be submitted to the Utility Billing Department for verification/signature.
4. Multi-family structures that are separately metered will be considered residential, thus requiring separate applications.
5. "New" refers to new construction with new equipment. "Conversion" means that the primary source of heat had been a fossil fuel system. "Upgrades" refers to the installation of new equipment in which the system being directly replaced is currently a heat pump.
6. In those cases where combinations of 2 or more heat pumps are installed in the same house, both or all are eligible for the full incentive amount.
7. If electricity is the primary source of heat for a residence, the use of solar panels, wood stove, or fireplace, will not affect the eligibility for an incentive rebate.
8. Additions and supplemental systems are not eligible for incentive payments unless they are large enough for their own dedicated heating and cooling system.
9. Package Terminal Heat Pumps (PTHPs) are not eligible.
10. Program is subject to the Terms and Conditions as outlined here, on the application, and under the General Guidelines.

General Program Guidelines:

The following guidelines will generally apply to all programs unless otherwise noted. Exceptions will be handled on a case-by-case basis.

1. The applicant must be the customer of record for the BPW utility service relating to the rebate.
2. This program is not available to customers with a current Energy Efficiency Loan through BPW, or customers utilizing PACE financing.
3. All incented equipment must be permanently installed except as exempted in program specific guidelines.
4. Incentives exceeding \$5,000 require pre-approval by the City before purchase or installation. No facility shall receive more than \$10,000 in **Go Green | Save Green** incentives annually without pre-approval.
5. No rebate(s) or incentive(s) will be paid without the completion of the application form. Applications must be received within ninety (90) calendar days of the purchase and installation date.
6. Sales receipt(s) or invoice(s) itemizing the new equipment and indicating the size, type, make, model, purchase date, amount, and/or scope of work provided must accompany each incentive application.
7. Rebated material must be installed at the service address served by BPW.
8. Failure to provide required information may result in denial of the rebate.
9. Rebates will be issued in the form of a utility bill credit.
10. Rebates and incentives are awarded on a first-come, first-served basis until program funds have been depleted.
11. BPW reserves the right to inspect the installed rebated material. If the qualifying equipment is not installed, the rebate may be debited to the utility account.
12. BPW reserves the right to amend or discontinue the program without notice.
13. BPW is not responsible for the rebated material's performance or energy savings, and does not provide any warranties or guarantees, expressed or implied.
14. The applicant agrees to obtain all applicable permits from the Beatrice Community Development Department; to use materials approved by our adopted building codes (2015 IRC and/or 2015 IPC); and to have equipment installed per code. All necessary permits and/or inspections are the responsibility of the customer.
15. The City Administrator/General Manager will make final determination of program compliance.

Office Use Only
